SUBJECT: Revamping the Midcareer Course

I think your six-point plan for revamping the course is appropriate. With the Grid being dropped, I believe some thought should be given to the relationship, if any, between the MCC and the Grid/Advanced Management ~~Source~~ Program.

Second, I would expect a greater justification of trips other than that they would be briefer and less expensive than the present trip. Do they fit legitimately into the course purpose or not? My own preference for elimination, if one or the other had to go, would be to drop the trip in favor of retaining the Grid.

Last, I would hope the projected "Scope Notes" will take into account some prior written submission compiled by the speaker to be presented to the class which would serve as a basis for more discussion, and less lecture, during the course.
